

## IMAGINE SURFACES ACRYLIC DECK COATING (Topcoat)

### Technical Data Sheet

Our Imagine Surfaces Acrylic Deck Coating is made from 100% Acrylic Polymer and designed to withstand the rigors a deck coating must endure. Formulated with concrete in mind, our Deck Coating is Acrylic tough and can hold up not only to Arizona summer heat, it will perform equally as well in freezing temperatures in our coldest state (Alaska/Minn.).

Imagine Surfaces Deck Coating utilizes technology from the 21<sup>st</sup> century. This waterborne 100% Acrylic coating is color fast and U.V. resistant. Wet slip resistance is formulated into this product and can be enhanced by adding Imagine Surfaces Non-Skid.

A variety of (12) stock colors is available along with custom tinting availability.

#### Physical properties:

Polymer:	100% Acrylic
Wt./gal.:	9.8 lbs. / gal.
Specific Gravity:	1.176
Color:	12 stock colors / custom tinting available
Odor:	Slight Acrylic smell
Coverage:	125 sq. ft. / gal. to 225 sq. ft. / gal.
Application:	Brush / Roll / Spray
Application Temp:	Surface must be above 50F. Keep from Freezing

Designed for Industrial use only.
