

Acrylic Waterproofing Sealer Instructions:

FLAMMABLE

Do Not Add Water

Application: Spray, Brush or Roll.

Mix well BEFORE use

Surface must be clean of all grease, oil and dirt. We suggest a mild soap and water wash followed by 3000 p.s.i. powerwashing. Rinse well and allow surface to dry. Note: surface moisture will cause this material to form a white haze. The application surface MUST be dry.

Spread Rate: 125 sq. ft./gal to 200 sq. ft./gal depending on porosity

Dry: Dry to touch 30 min. to 1 hr. depending on temperature and humidity.
Dry to walk on 24 hours.
Let cure 7 days before standing water or patio furniture.

If spilled, wipe up with Xylene (available at local paint stores) This product is fast drying and will adhere quickly to most surfaces.

Designed for Industrial Use Only

Ideal application temp. above 50F and below 90F

DISPOSE OF UNWANTED MATERIAL IN ACCORDANCE WITH FEDERAL,
STATE AND LOCAL REGULATIONS.
